Bio-Sketch: Dr. Ritu Khosla

Ritu is a Senior Project Scientist in the Digital Nose Project, IKSMHA, IIT Mandi. She received her Ph.D. in Computer Science and Engineering from the Indian Institute of Technology Ropar, Punjab, India. She has worked as a postdoc and research fellow at the University of Sannio, Italy, and the University of Stuttgart, Germany, respectively. Her current research is focused on Digital Nose for Health care, DevOps for Cyber-Physical Systems, software maintenance and evolution, empirical software engineering, and mining software repositories. She has received the Microsoft research travel grant and the ACM CAPS Sigsoft grant for her research. She has served/is serving as a program committee member of international conferences in the software engineering field, and she serves as a reviewer for Software Engineering journals such as TOSEM, TCC, EMSE, IST, and JSS.

Office: ACS Lab, IIT Mandi.
